

# Oak Laslett

---

This dark core-smoked parquet with delicious tones of deeply roasted coffee beans

Chosen by the designers of the boutique hotel The Laslett in Notting Hill. A classic monochrome scheme, the dark parquet floor contrasts beautifully with the white walls and makes the colourful art and furniture, really stand out. We love this floor so much that we named the floor after the hotel.

### **Planks: From £109 sqm**

Widths available: 180mm, 220mm, 240mm

Thickness available: 15mm

Duplex Engineered

# Technical Specifications

<b>SPECIES</b>	European oak
<b>CERTIFICATION</b>	Duplex engineered: FSC® Mix Credit
<b>APPLICATION</b>	Commercial and residential (Indoor)
<b>CONSTRUCTION</b>	Duplex engineered 4mm top layer oak on either birch plywood or a mix of Poplar & Eucalyptus WPB glued
<b>BEVEL</b>	Planks: Micro bevel as standard Herringbone & Chevron: No bevel as standard
<b>INSTALLATION TECHNIQUE</b>	Nail, glue bonding or floating
<b>SUITABLE FOR UFH</b>	Yes, when duplex engineered
<b>FIRE CLASSIFICATION</b>	EN: 13501: Dfl-S1
<b>THERMAL CONDUCTIVITY</b>	0.119-0.17 λ W/mK
<b>HARDNESS</b>	4,982 N (Janka)

Timber floors are easy to care for, please call us for further information on the best way to look after your floor.

Timber is a living material. A wooden floor, although no longer growing as part of a tree, is still very much part of its environment. As such, it responds to the light, temperature, humidity and wear to which it is exposed.

As the floor ages the colour of the wood will mellow and change. This is a natural process that occurs as the surface of the wood is exposed to oxygen in the air and to ultraviolet light from the sun. Painted surfaces, upholstery, furniture and rugs all undergo this same process over time.

After a number of years you may wish to have the floor surface sanded down and re-finished. You could then choose to re-oil the floor or have it stained first or even re-finished in lacquer.
