

# Oak Strata

---

Oak Strata is our starter collection that offers both craftsmanship and quality at a very competitive price.

The boards are sanded smooth, some are smoked and they are all sealed with a selection of clear or pigmented oils for ageless simplicity. The Strata range comes in ten distinctive, beautiful colours, six plank widths, and is also available in herringbone and chevron.

## Technical Specifications

<b>SPECIES</b>	European oak
<b>APPLICATION</b>	Commercial and residential (Indoor)
<b>CONSTRUCTION</b>	Duplex engineered 4 or 6mm top layer oak Solid oak
<b>BEVEL</b>	Micro bevel as standard, also available hand scraped or square edged
<b>INSTALLATION TECHNIQUE</b>	Nail, glue bonding or floating
<b>SUITABLE FOR UFH</b>	Yes, when duplex engineered
<b>FIRE CLASSIFICATION</b>	EN: 13501: Dfl-S1
<b>THERMAL CONDUCTIVITY</b>	0.119-0.17 $\lambda$ W/mK
<b>HARDNESS</b>	4,982 N (Janka)

Timber floors are easy to care for, please call us for further information on the best way to look after your floor.

Timber is a living material. A wooden floor, although no longer growing as part of a tree, is still very much part of its environment. As such, it responds to the light, temperature, humidity and wear to which it is exposed.

As the floor ages the colour of the wood will mellow and change. This is a natural process that occurs as the surface of the wood is exposed to oxygen in the air and to ultraviolet light from the sun. Painted surfaces, upholstery, furniture and rugs all undergo this same process over time.

After a number of years you may wish to have the floor surface sanded down and re-finished. You could then choose to re-oil the floor or have it stained first or even re-finished in lacquer.
